

**First aid is such a simple skill, but it has an incredible impact. We want everyone to learn it, so that they can be the difference between a life lost and a life saved.**

At St John Ambulance we have **2,500 employees** and **over 15,000 volunteers**. We also have **15,000 young people** in our youth programmes.

Through our workplace training, first aid supplies and ambulance operations we raise money to enable our volunteers to learn and deliver lifesaving first aid skills as well as supporting our youth programmes. Our turnover is £100M per year and growing. We have been through several years of change and reform and are now a **vibrant 21<sup>st</sup> century charity**.

Every year, more than **500,000 people learn how to save a life** through our programmes. By 2020 our ambition is to teach first aid to 2 million young people per year.

**Our volunteers** provide first aid in their communities, keeping people safe at events, and working alongside the NHS in response to 999 calls.

**Event services:** We provide first aid cover for events – from major sporting fixtures and music festivals to public gatherings.

**Ambulance services:** We play a crucial role in supporting the emergency services, responding to local incidents and major accidents.

**Workplace training and first aid supplies:** We're the leading provider of workplace training, reaching over 250,000 people a year. We also have a growing supplies business, supporting many external customers as well as our own first aid and ambulance organisations.

**Young people:** We don't just teach lifesaving skills – we offer lifesaving opportunities as well.
